Github: <https://github.com/Namani Srivas>

Mobile: [+91 7396294848](tel:+917396294848)

SKILLS

Languages: C, C++, Python, Java, HTML, CSS, JavaScript
Tools: Github, Git, Canva, Excel, Windows, Vs Code
Platforms: LeetCode, Geeksforgeeks, Codechef, HackerRank, HackerEarth, AlgoExpert
Frameworks: Pandas, Scikit-Learn, Tensorflow, Tailwind CSS, React
Soft Skills: Problem-Solving, Team Player, Project Management, Adaptability

PROJECTS

Route Optimization for E-Commerce Delivery | [GitHub](#) Oct' 25

- To developed a intelligent system that optimizes last-mile delivery routes for faster and cost-effective e-commerce order fulfillment.
- Built an ML-based solution using Python, data analytics, and clustering algorithms to analyze delivery locations, traffic patterns, and package priorities.
- The system successfully generated optimized routes, reducing delivery time and improving overall logistics efficiency.
- Tech Stack: Python, ML, Data Analytics.

Fuzzy Logic in Air Quality Management | [GitHub](#) Mar' 25

- Developed a air quality estimating system by applying fuzzy logic to estimate like human estimations.
- Created and launched a prototype website by using Html, CSS and Python (Flask) assembled fuzzy membership functions and rule bases that takes parameters like Co, No2, O3, Pm10 and PM2.5 to classify air quality levels as Good, Moderate and Bad.
- Transformed numerical pollution parameters into clear labels, enabling anyone to easily understand air quality.
- Tech Stack: Python, HTML, CSS.

Meal Recipe Planner Project | [GitHub](#) Oct' 23

- Created a meal planer list to assist with day to day meal planning to accommodate nutrition/ calorie intake.
- Designed and developed the project using HTML, CSS, and JavaScript, focusing on a clean UI and smooth user interaction.
- Provided details on restaurants and their menus to assist with decision making.
- Tech Stack: HTML, JavaScript, CSS.

CERTIFICATES

- ChatGPT-4 Prompt Engineering | [Infosys](#) Aug' 25
- Computational Theory Language Principle & Finite Automata | [Infosys](#) Aug' 25
- Training in Data Structure and Algorithm | [CipherSchools](#) Jul' 25
- C For Everyone-Programming Fundamentals | [Coursera](#) Feb' 24

ACHIEVEMENTS

Webathon

- Participated and showcased competitive programming skills in webathon and build a complete website in 1st year itself.

Competitive Programming

- Solved 100+ coding questions on platforms like Hackerrank, Codechef.

EDUCATION

Lovely Professional University Phagwara, Punjab
Bachelor of Technology Aug' 23 - Present
Computer Science and Engineering; CGPA: 5.76

Alphores Junior College Karimnagar, Telangana
Intermediate Jun' 22 – Mar' 23
MPC; Percentage: 92%

Krishnaveni Talent School Godavarikhani, Telangana
Matriculation Jun' 20 – Mar' 21
Percentage: 98%
